## Recycle Day November 15th—DO ONE THING for a Better World

Each year Americans create about 240 million tons of solid wastes - about 4 1/2 pounds per person each day! Much of this waste ends up in landfills or is incinerated, but most of it can be recycled. Recycling is taking a product or material that is no longer being used and turning it into a raw material that can be used for something else. It is an easy but important way of helping to protect our environment from the pollution that our wastes can cause. Thanks to the environmental movement, recycling has spread across the country and around the world.

## Interesting facts about Thanksgiving

Thanksgiving is a great time to be thankful and appreciate who you have and what you have. It is a time for families to meet, socialize and enjoy each other's company, sometimes the only opportunity in a year. Some prefer it to Christmas because of less emphasis on consumerism. Thanksgiving, for most, is also a start of a four day weekend which is great, too.
